

PORTABLE WATER TESTING KIT – COMBINED

WAGTECH PROJECTS

## COMPONENTS, ACCESSORIES AND CONSUMABLES INCLUDED IN YOUR KIT

<b>Microbiological Testing</b>	<ul style="list-style-type: none"> <li>⊙ Membrane filtration system for precise cfu counts</li> <li>⊙ 5 m lanyard for sample collection</li> <li>⊙ Hand powered vacuum pump</li> <li>⊙ Dual chamber incubator with independently controlled chambers with complete programmability of temperatures between 20°C and 50°C.</li> <li>⊙ Audible alerts</li> <li>⊙ LCD display of time, temperature and other variables</li> <li>⊙ Tactile soft buttons</li> <li>⊙ Easy user calibration</li> <li>⊙ 50 reusable petri-dish capacity</li> <li>⊙ In-case incubator docking station technology</li> </ul>
<b>Photometric Testing</b>	<ul style="list-style-type: none"> <li>⊙ IP68 rated photometer (HydroTest HT1000) for over 40 different chemical tests</li> <li>⊙ Dilution kit for high concentration samples</li> </ul>
<b>Electrochemical Testing</b>	<ul style="list-style-type: none"> <li>⊙ IP68 rated multiparameter meter (HydroCheck HC1000) with pH/EC and temperature probes supplied as standard</li> <li>⊙ Calibration solutions supplied as standard</li> <li>⊙ Dissolved Oxygen (DO) and ISE measurement available</li> </ul>
<b>Consumables</b>	<p>Kit comes complete with:</p> <ul style="list-style-type: none"> <li>⊙ 6 x Sterile membrane lauryl sulphate broth (MLSB) sachets for 300 coliform tests</li> <li>⊙ 300 high sterile quality pads and membranes</li> <li>⊙ Field dechlorination kit</li> <li>⊙ Methanol (subject to shipping regulations) as standard</li> <li>⊙ Reagents for 300 tests of each of               <ul style="list-style-type: none"> <li>⊙ Ammonia</li> <li>⊙ Total arsenic</li> <li>⊙ Free chlorine</li> <li>⊙ Total chlorine</li> <li>⊙ Nitrate</li> <li>⊙ Nitrite</li> </ul> </li> <li>⊙ Other chemical tests available – see page 49 for details</li> </ul>

For a full range of consumables - see pages 46 to 49
